**EXPERIENCE IT!**

**Locations at**  
Newport  
East Valley

**FREE PROGRAM**  
This incredible opportunity  
is offered at no cost.  
Apply now. Space is limited.

## PRODUCTION & MANUFACTURING INSTITUTE

### Why Learn About a Career when You Can Live It?

We offer a first-hand expense-paid opportunity to see what it's like to work in the trades.

### What We Do

- 3-Week Intensive Program - we put you into a manufacturing environment.
- Career Exploration - You learn about careers such as production, engineering, and more.
- Skills - We teach you fundamentals to work in a shop environment safely.
- Production - You work with teams just like the workplace to make and sell real products.
- Exposure - You'll be exposed to carpentry, welding, machining, design, business, and operations.

### What You Learn

- This is a real work situation - we put you in the middle of quotas, deadlines, and projects.
- We teach principles of manufacturing as you do them. That's the best way to retain learning.
- You'll work mostly with wood and metal - it's easy to learn how to make things, but the process and flow of manufacturing is the same regardless of what you make.
- Our guides will help you learn basics of design, fabrication, quality, customer service, and sales, .
- Students won't graduate as trained technicians. They will be exposed to several pathways and gain critical skills in communication, leadership, problem-solving, and teamwork.

### What You Earn

Program graduates both earn and learn. We offer the following:

- **Rewards:** Valuable personal and career related rewards. Earn points to spend at the Company Store for valuable merchandise, school supplies, tools, gift cards, 3D printers, tech, and more.
- **Swag and Goodies:** We give t-shirts, materials, water bottles, pens, and a ton of stuff.
- **Experience:** This experience looks great on any resume and lets you network with professionals.
- **Skills:** Students gain knowledge and skills in tools, processes, and interpersonal skills.

### Other Details

For more information, go to [www.ManufacturingInstitute.net](http://www.ManufacturingInstitute.net).

- **Schedule:** The 2024 Institute runs July 8 - 26.
- **Locations:** East Valley High School (Spokane Valley) & Newport High School
- **Ages:** Minimum age 16. Must be a Junior or Senior in 2024/25 school year.
- **Interest Areas:** Great if interested in engineering, welding, machining, construction, business.
- **Best For:** The program seeks those who are exploring career options with interest in the trades.
- **Caveat:** Participants are expected to work - just like a real job. Learning comes through effort, trial, error, and application. This isn't a "summer camp." It's a live, work experience.
